Ark of the covenant:

Family Faith Activity: November is a month to really focus on our blessings and be grateful for all God has given us; this is very important for us to pass on to our children- a spirit of appreciation. In being thankful, we can't help but compare ourselves to those who are less fortunate. Maybe this is why Pope Francis designated a Sunday in November as "World Day of the Poor." On November 18th we are called to be aware of, pray for and reach out to those who don't have as much as we do.

For **Family Faith** in November, this will be our focus... **being grateful for our own blessings and sharing them with others.** This is a very significant way to show our love of others and of God.

Besides thanking God by attending Mass, we encourage you to commit to finding a way to serve others as a family. What a gift to give our children!
