
October Supplemental Learning

Kindergarten has been learning about **ways** they can talk to God...along with **when** they can talk to God.

But, sometimes, it's not just about **them** talking to God...but more important, **God** speaking to them and listening to what he has to say.

Their supplemental learning for October is a chance for them to talk with you about the different ways they can **hear** God, whether it is at a family meal or a ride in the car.

What an important lesson for Kindergarten on listening!
